OFFECCT

OFFECCT

Offecct was founded in 1990 in Tibro, in southern Sweden. Headquarters, factory and showroom are still there today and were redesigned in 2005 by Claesson Kovisto Rune Architects.

This young company manufactures easy chairs, sofas, chairs, tables and acoustic wall panels for commercial and domestic interiors.

The company name is an imaginative concoction of the Swedish word *offentlig* (meaning public) and the English word *affect*. The play on words grasps the very core of the company; to affect public space and generate creative meeting places. Several public spaces

all over the world have been furnished with pieces from Offecct. A few examples are Dansk Radio, Copenhagen, (Denmark), MoMA; The Museum of Modern Art, New York (USA), Sfera building Restaurant, Kyoto (Japan).

Offecct collaborates with renowned international designers. The portfolio is continuously updated and the modern furniture design reflects clear Scandinavian style. The design management ensures the Scandinavian touch under the supervision of Eero Koivisto.

www.offecct.se

OYSTER. Design by Michael Sodeau. The shape of this easy chair is inspired by the seductive shell of an oyster.

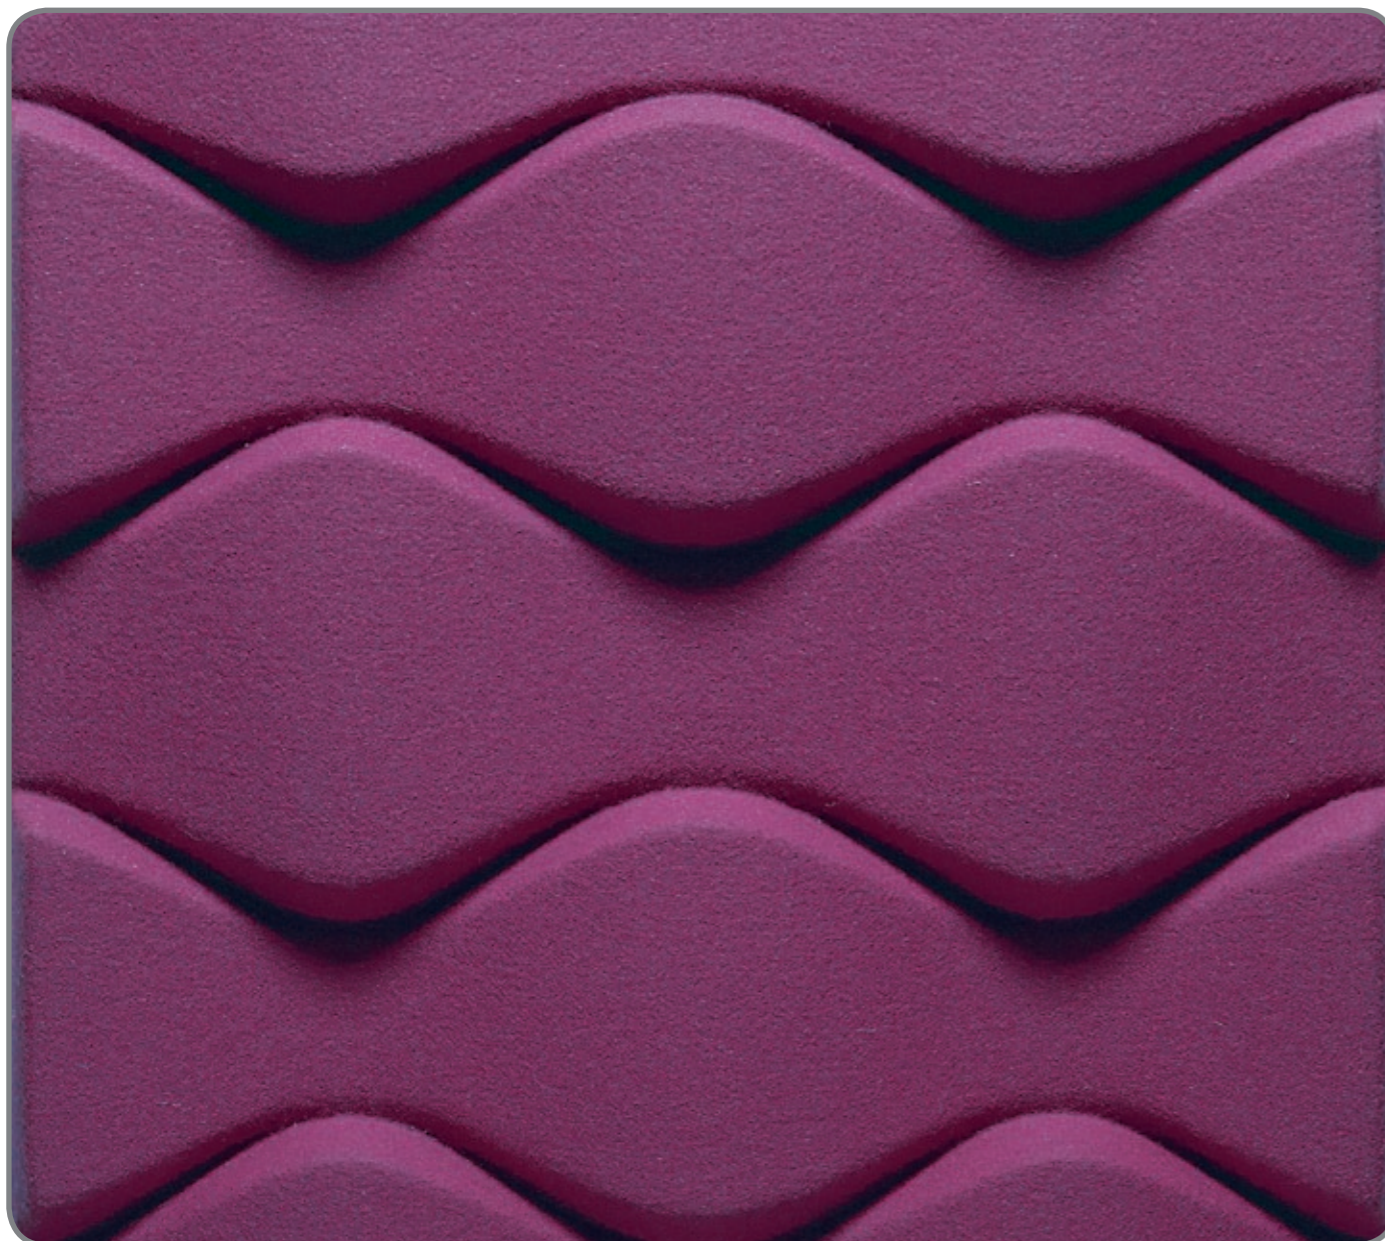

PALMA. Design by Khodi Feiz. A lounge chair, inspired by the palm of the hand cradling the human body.

SPOON. Design by Monica Förster. The chair owes its name to its resemblance to a spoon, used in Asian cuisine. It appeals through its lightness.

BOND CHAIR. Design by Jean-Marie Massaud. Available as a lounge or meeting chair, Bond can be used in any application.

SOUNDWAVES. Design: Teppo Asikainen. These acoustic wall panels are designed to be used as lightweight sound absorbers in the upper frequency range (500 Hz and above) and help reduce disturbing reflections of environmental sounds such as voices, telephones, etc. Each panel has a standard size of 585 X 585 cm and is available in different designs and colours. The soundwaves not only enhance the acoustics but also the aesthetics of a room.

FLOAT HIGH. Design by Eero Koivisto. Like a small separate room, that provides privacy in open spaces. Available in 95 cm or 130 cm height.

FLOWER. Design by Eero Koivisto. Versatile pieces made out of cold foam. To be used as either a side table or chair and easy to place.

GHOST. Design by Eero Koivisto. Ghost combines a modern interior shape with a classic cubic exterior. Available as a sofa and easy chair.
